

The great news is that the solutions to create safe and healthy journeys are known and available to us now. They are part of the Safe System approach to road safety and include having safe spaces for people to walk and cycle; safe, clean and efficient vehicles; plus safe roads and roadsides.

There are lots of people working to make our roads safer, or who provide support to people following a crash. For Road Safety Week we're recognising all these Road Safety Heroes. They include emergency services personnel, road safety professionals, transport planners and engineers, road workers, school road patrollers, community campaigners and many more.

## Take part in our Road Safety Week quiz and find out how much you know about road safety.

- How many people died on roads in New Zealand in 2024?
  - 293
  - 253
  - 341
  - 319
- What percentage of road deaths are from crashes involving a driver under the influence of alcohol and/or other drugs?
  - 27%
  - 38%
  - 53%
  - 60%
